# CEO Magazine 2015 MBA Rankings

*CEO Magazine*s new annual MBA rankings have been compiled based upon key performance indicators considered to be of interest and value to potential students. Thus, international diversity, class sizes, student work experience, faculty-to-student ratios, and faculty qualifications – both academic and professional – have been given considerable weight. With competition between business schools continuing to increase, it is important for schools to understand what students really want. Schools ranked highly by *CEO Magazine* have been successful in this goal.
